

# ARIUNTUYA JAMBALDORJ

artist

I am a neo-nomadic Mongolian artist, based in Ulaanbaatar. My artistic practice incorporates videos, drawings, sculptures, collages, land art, and site-specific installations and explores the experience of self-observation, existential questions such as life and death, the relationship between humans and nature, and the way it is changed over time. I often use words, phrases, and natural materials as medium for my works.
